THE
12
 CARDS
 of Christmas
 2013

❄️ This year, the On-Q Christmas Card Selection consists of a carefully-chosen series of fine art prints and fine-art photography (as well as some new and unique images by well-known master artists).

❄️ All of the images have been skillfully and meticulously selected and as part of the quality process, have also been photo-enhanced by fine art retouchers and illustrators.

❄️ So if you have not yet finished your Christmas Card List (and happen to be running a little late) don't worry; we are producing cards right up until the 15th December with delivery to to your clients or friend (or you on that day or before, if required).

❄️ And if you find the thought of labeling or packing your list this year a little daunting, don't worry, send it to us and we'll do the rest.

On-Q Media. On Quality. On time.

Our desire during this Christmas time is to capture the spirit of the season by being as generous as possible. So our aim this year is to donate the proceeds from every card ordered to the very worthy cause of The Helen Bamber Foundation. No matter if you order a minimum of 50 cards £1 will still be donated to The Helen Bamber Foundation. But the more you order the more we can give. So please help us to raise the money to help Helen Bamber Foundation help those in need at this very special time of year and to help us all make this time a very special Christmas for them.

Thank you.
On-Q Media.

The Helen Bamber Foundation is a human rights charity based in London. Founded in 2005 their specialist team hold an international reputation for providing therapeutic care and support to survivors of human rights violations. They work with the most vulnerable and marginalised people in society. Integrated care includes assistance with welfare, housing and legal protection. Quality of care, support and protection given to the most vulnerable people in any community helps to break the inter-generational impact of human rights violations and shines a light on the identity and actions of perpetrators.
